

Adverbs

- 1 Adverbs are words that describe actions. Adjectives add detail to nouns, and **adverbs** describe **verbs**. They add more detail to the action.
- 2 To think of adverbs, or find them in the text, ask “How is something happening?” It is something happening ... slowly? Happily? Suddenly?

Read a chapter of the book and look out for words that end with the letters -ly. Write the words down below!
- 3 (If you can’t find many, check with a buddy, or brainstorm your own).
- 4 How do adverbs help us to understand the text better? Why do you think authors use adverbs?

“Adverbs often add -ly to the ends of other words, like:
quickly smoothly
suddenly usually.”

My notes
