

Silent Letters

- 1 Silent letters can be tricky because the word sounds different to its spelling. Think of the words “knee” and “thigh” – you don’t make a ‘k’ or a ‘g’ sound when you say them.
- 2 What other words do you know that have silent letters in them? Make a list in the box below, and circle the silent letters.
- 3 Read a chapter of your book. Try to find any silent letters that might be hiding in the text.
- 4 Why do you think it is important to notice silent letters?

Some common endings have silent letters in them:

- might, night, tight, light
- climb, thumb, comb

My notes
