

Captions

- 1 Read a chapter in your book with pictures that have captions.
- 2 How do the captions connect to the pictures? What new information do they give?
- 3 How are the captions helpful? Would you understand the images the same without captions?
- 4 Find a picture that doesn't have a caption, and write a caption to go with it in the box below!

Captions might explain what the image is showing, label parts of a diagram, or give new details about the text!

A large, empty rounded rectangular box with a black border, intended for writing notes.
