

Compound Words

- 1 Compound words are **sometimes** tricky to see! Even just looking around your **classroom**, they could be hiding **anywhere**!
- 2 Read a chapter of your book, and write a list of all the compound words you can find!
- 3 Look at your list of words. How do the two words connect to the new meaning of the compound word? Why do you think that is?
- 4 Can you invent a new compound word? Try to think of two words you could join together to make a new one! Write your new word and what it means in the box below.

The meaning of a compound word often comes from the two words it is made from, like sunflower or firefly!
