

Sequences

1 Read a chapter that has a sequence or set of instructions in it.

2 How does it look different to the rest of the text? What makes it easy to follow in order?

3 Why is it important to follow the steps in order? What do you think would happen if the sequence was changed?

4 Write a type of sequence below that tells someone how to do something. Make sure to number your steps.

• Types of sequences are:
How to create something
How to play a game or sport
Recipe for cooking
