

## Referencing the Glossary

- Explain that books sometimes have a glossary, which explains the meaning of trickier words.
- Show the students where the glossary is in the back of the book. Explain that the bold word is on the left, followed by a definition.
- Have students find a word that is in bold in the text, then find the definition in the glossary.
- Point out that the glossary is listed in the book's contents.
- Discuss other ways to find out the meaning of words, such as a dictionary, or looking at the parts of the word to try to work out the meaning.

*Notes:*

For more support on Referencing the Glossary, see page 33 of the *Pathways Teacher's Guide*.
